### Containers Acceptable for Recycling :

- ⇒ Non-refillable containers embossed with recycling symbol #2
- ⇒ EPA registered crop protection products labeled for agriculture, forestry, vegetation management, and specialty pest control
- ⇒ Containers used to hold crop protection adjuvants, crop oils and surfactants
- ⇒ **Container sizes up to 55-gallon capacity drums when quartered**

### Containers Not Acceptable for Recycling :

- ⇒ Brittle and breaking containers
- ⇒ Consumer home & garden pest control product containers
- ⇒ Containers used for animal health products

### Acceptable Container Preparation:

- ◇ Clean container, thread and lip
- ◇ Stains inside and outside OK as long as clean
- ◇ All non-HDPE parts such as caps, **metal handles and rubber linings MUST be removed**, as well as, plastic sleeves around containers
- ◇ **Booklets MUST be removed**, glued on label paper is okay
- ◇ **30-gallon containers or larger MUST be quartered**. No plugs/bungs in lids accepted

*Always follow the instructions on the label and wear the proper protective equipment before handling any crop protection products.*

### Non-Acceptable Container Preparation:

- ◇ Dried formulation on or inside the container or threads
- ◇ Bottom (inside) is caked with dried residue
